

## WORKSHOP PACKAGES

---

### WORKING INTERNATIONALLY

---

This one day workshop helps you create your own leadership style when working international. It is a platform in which you can learn to:

- develop your cultural awareness and your understanding of cultural diversity
- evaluate the impact of culture in business relationships
- experience new ways of collaborating and communicating
- develop the ability to build trust with colleagues from different cultures

#### **YOUR BENEFITS**

- Enhanced competencies of global leadership
- More productive working relationships with colleagues worldwide
- Increased performance by avoiding the pitfalls when working internationally

---

### INNOVATION

---

This learning program helps teams solve critical business challenges that require innovative solutions. You will discover new innovation techniques that help you develop a culture of innovation. The session enables you to:

- understand the four basic approaches to innovation and change
- follow a process that helps solving important business challenges creatively
- generate ideas and decide which ones to explore or develop further

#### **YOUR BENEFITS**

- To understand your own preferences around innovation
- Acquire principles and tools to become more innovative
- A plan for how to move forward with the best ideas

---

### TEAMBUILDING

---

Team building is important in any organization. Its focus is to bringing out the best in a team to ensure self development, positive communication, leadership skills and the ability to work closely together as a team to problem solve. You will learn to:

- build interpersonal skills
- leverage strengths and weaknesses in a team
- build trust through shared values

#### **YOUR BENEFITS**

- Increased understanding for team dynamics
- Solutions for dealing with difficult team situations
- Understanding of common ground rules for working together more effectively
